"I called about having a new deck installation on a vacation home of ours. While the old deck probably could have been repaired- we decided just to opt for a new deck with composite instead of wood and it turned out beautiful. We love that it is no-maintenance and it will look great for years to come. The crew that came out was clean-cut and very friendly. It didn't take them more than a few days to have it all completed and there was not a giant mess either outside. Thanks guys!"

"Great guys! They came out right away to give us an estimate on installing a new deck for us. Their timeline was great and they were true professionals in getting the job done. Most importantly they were fair, honest, and we've received compliments already on how nice it looks. It also appears to be very sturdy too so we shouldn't need to replace it for as long as we live here."

"LA Deck Pros did a great job on repairing our deck. It was looking pretty shabby and even though it has had some maintenance over the years, it was really falling apart underneath. Their service and pricing were fair and they were able to fit us into their schedule without too long of a wait. The owner is very hands on too and checked to make sure we were happy.LA Deck Pros did a great job on repairing our deck. "We were looking for someone to replace our deck and were impressed with the first phone call. He was attentive in listening to our needs and wanting to understand our vision for the project. We went ahead with the project and it was smooth sailing. They did what they said they would do, the installation was quite quick given the large size and they were friendly and polite. We couldn't ask for a better experience. Thank you!"

"They did a great job repairing our deck. It turned out to be a lot more work than they had estimated before but they honored their initial bid. Very happy and highly recommend them."

"I called and spoke to the owner (I think it was the owner- he was able to get us an estimate that same week) and we thought it sounded fair. It was comparable to another company we'd talked to but they couldn't fit us in for months and we wanted to get the project done before family were coming to stay for a few months. When they arrived to do the work the workers were nice and I swear they didn't even take a break. The deck was done fast and it looks great. Money well spent."

"We hired Los Angeles Deck Pros to repair our deck that had some loose boards and rotting steps. They suggested reinforcing some other spots too which wasn't that expensive. We went ahead with that and I liked that they didn't just try to push a whole new deck on us like another company tried to do. Honest people and a good experience."

"We were referred to them for an outdoor kitchen install by a friend of ours who had used them too. We didn't need a deck but rather wanted a patio, some landscaping, and a nice built-in kitchen. They were able to design exactly what we wanted and while it was more than we thought it would cost, the result is gorgeous. It looks even better than we could have imagined. It is worth the investment, we use it multiple times every week and we get so many compliments when entertaining about how well it fits our house and backyard. Just call them and you'll be happy you did."
